Personal Interests and Goals:

The Arts Center of the Capital Region gives college students and aspiring professionals the opportunity to experience working in a fast paced, busy, arts environment. We currently do not offer paid intern positions. However, we can complete the necessary requirements for students to receive credit toward their degree, if applicable. Pursuing an internship at The Arts Center of the Capital Region is recommended for students interested in working in arts administration, art education, galleries, museums, schools, and other arts institutions. Upon registering, potential interns will be invited to an informal interview. Questions related to internships can be directed to Alana Akacki by calling 273-0552 x 221, or emailing alana@artscenteronline.org.
